Notice Regarding the commencement of system linkage with TL-Lincoln for Tourist Sending Business

Intrance Co., Ltd. (the "Company") hereby announce that the company decided to start system linkage with "TL-Lincoln", a reservation and sales management system for accommodation facilities (hereinafter referred to as "Site Controller"), in tourist sending business, that sends travelers from Greater China to Japan.

This system linkage with TL-Lincoln will enable us to facilitate tourist transfers not only to hotels operated by our group, but also to hotels and accommodation facilities in Japan that have installed TL-Lincoln by concluding individual contracts with us.

The company aim to expand our tourist sending business by acting as a wholesaler and hotel reservation agent connecting travel agencies, online travel agents, and live commerce companies in Greater China with hotels and accommodation facilities in Japan.

Through this system linkage with TL-Lincoln, the company will be able to supply products online and in real time.

Therefore, the company will be able to process a large volume of information on sending customers in the future, which finally met the condition for business expansion.

■ Reasons for decision to system linkage with TL-Lincoln

The Companies group has shifted its business from the "real estate business," which has been its main business since its establishment, to the "hotel operation business," which includes the operation, advisory and development of hotels and accommodation facilities, and is making investments to improve and grow these business environments.

In addition, the company aims to "cover the all of business areas of inbound by the company," and the company has commercialized the tourist sending business from Greater China, which has a large number of tourists to Japan, hotel operations and land services in Japan, and effort to increase the

value of hotel real estate, in order to grow all of our businesses along with the Japanese inbound market, and finally, the company work on activities to grow all of the companies businesses accompanied with the growth of the Japanese inbound market.

Due to these circumstances, the company has decided system linkage with TL-Lincoln, one of the largest site controllers in Japan is best way to expand the tourist sending business.

■ What is TL-Lincoln ?

TL-Lincoln is Japan's largest site controller provided by Seanuts Co., Ltd. headquartered in Minato-ku, Tokyo, and provides a system for reservations, remaining room management, and rate management for accommodation facilities.

This company's shareholders include Recruit Co., Ltd. and JTB Co., Ltd., and TL-Lincoln is currently installed in approximately 5,800 hotels and accommodation facilities.
